Professional Summary

Computer Science & Artificial Intelligence undergraduate (6th semester) with hands-on experience in Python, JavaScript, and full-stack web development. Builder of functional web applications with a strong grasp of programming fundamentals, data structures, and problem-solving. Currently expanding into Machine Learning, with a growing interest in working alongside AI tools and research-driven engineering workflows. Eager to bring curiosity, adaptability, and clear technical communication to a collaborative, fast-paced team.

Technical Skills

- **Programming Languages:** Python, C, C++, JavaScript
- **Web Technologies:** HTML, CSS
- **Databases:** SQL (Basic)
- **AI Tools & Prompting:** Confident with ChatGPT and other AI tools for presentations, data analysis, and coding/debugging
- **Tools & Practices:** VS Code, Git (Basic), Cursor, Streamlit, AI-assisted coding tools
- **Currently Learning:** Machine Learning fundamentals
- **Areas of Interest:** Web Development, Artificial Intelligence, Problem Solving

Education

Purnea College of Engineering, Purnea, Bihar

B.Tech in Computer Science Engineering & Artificial Intelligence — Aug 2023 to Present | CGPA: 7.51 (6th Semester)

Hari Shankar Nayak High School, Katihar

10th: 82.4% | 12th: 70.8%

Internship Experience

Web Developer Intern — Internshala

8 Weeks

- Completed an intensive 8-week internship in Full Stack Web Development, covering both front-end and back-end fundamentals.
- Strengthened front-end design and UI implementation skills using HTML, CSS, and JavaScript.

Artificial Intelligence Intern — Codec Technologies Pvt. Ltd.

24 Mar 2026 – 24 Apr 2026

- Completed a 1-month AICTE & ICAC approved AI internship, listed on the National Internship Portal.

Summer Entrepreneurship-II Program — Edulogy Institute

16 Mar 2026 – 27 Apr 2026 (6 weeks) | Grade: A++

- Completed a 6-week entrepreneurship program focused on Artificial Intelligence.

Projects

E-Library Website

- Built a web-based digital library using HTML, CSS, and JavaScript, allowing users to browse books across multiple categories.

Yoga Benefits & Yoga Pose Website

- Designed an informative website covering the benefits of yoga and a guide to different yoga poses, focused on simple, accessible content presentation.

Mall Customer Segmentation

- Performed customer segmentation on the Mall Customers dataset using K-Means clustering, grouping customers by age, income and spending score.
- Built an interactive Streamlit dashboard to visualize the resulting customer segments.

Certifications

- Human-Computer Interaction (NPTEL SWAYAM) — Scored 93%
- The Joy of Computing using Python (NPTEL SWAYAM) — Scored 67%
- AI Interview Certification — micro1
- Technology Job Simulation — Deloitte, via Forage
- Web Development Course — Skill India / NSDC, via Internshala Trainings — Grade B
- AI Tools & ChatGPT Workshop — be10x
- Kushal Yuva Program (KYP) — BS-CIT 83.81%, BS-CLS 99.47%, BS-CSS 86.47% — Bihar Skill Development Mission

Languages

Hindi, English

Interests

Problem Solving, Artificial Intelligence, Web Development, Machine Learning
